

The last year has been a wonderful year for our family, life and ministry in Fort Collins!

Thank you for your investment in our family!

College Ministry and our church is continuing to grow and it has been a blast. The spring average Sunday mornings has been 230 and our college ministry has 4 thriving lifegroups.

The most encouraging part of the Spring has been **two students with minimal church experience giving their lives to Jesus** and going on our Spring Break trip to Tijuana, Mexico.

We have also been reaching out to a new people group on campus who do not have much relationship with a church! We are expectant to be able to love on them. **2 people have already started attending lifegroups and we are praying for their salvation!**

All this is a direct result of your financial and prayerful commitment to us and is counted to your benefit! Thank you!!! We are also thankful to continue to pour our lives out in Fort Collins as a family. It is a joy to do it with you!
